Quick Start Instructions

TL-2800

Motion Sensor

Caregiver Alarm

Portable Caregiver Alarm With Motion Sensor For The Elderly

Place 3 new "AA" battery in the motion sensor.

Place three new "C" batteries in the caregiver alarm or plug the receiver into a wall outlet using an AC-04 adapter (sold separately).

NOTE: The outside lights on the top of the alarm will blink if the "C" batteries need to be replaced

Mount motion sensor and caregiver alarm to the wall using screws and/or the included adhesive squares.

**Caregiver Alarm is portable and can be carried by caregiver if desired*

The receiver may be placed up to 300 feet from the motion sensor. Environmental conditions can change the effective range of this wireless equipment; **test the system before each use.**

The volume of the alert can be adjusted using the switch on the left side of the caregiver alarm. Volume can be set at low (LO), medium (MI) or high (HI).

- Each time the infrared field of the motion sensor is interrupted, the caregiver alarms outside lights will blink quickly and go off and the center light will stay solid will chiming repeatedly.
- Reset the caregiver alarm by moving the switch to "OFF", wait 30 seconds and then back to "CHIME" to reactivate it.

Test system prior to each use.
